

The summary of railway construction in the United States for the year 1882 shows the construction in 45 of the 47 States and Territories on 312 lines aggregate 11,343 miles, or about 2,000 miles more than in 1881, which exceeded any previous year by 2,000 miles. The construction is divided as follows: Five New England States, 53 1/2 miles; four Middle States, 1,315 1/2 miles; five middle Western States, 2,077 1/2 miles; eleven Southern States, 1,400 1/2 miles; four in Missouri River belt, 2,063 1/2 miles; five in Arkansas belt, 2,157 1/2 miles; five in the Colorado belt, 1,165 miles; six in the Pacific belt, 1,020 miles.

McConnell's "valued policy" insurance bill is a fraud of the first water. Its enactment would drive out of business every legitimate insurance company. The "valued policy" bill is always a "little joker" of the lobby boys for the purpose of making the companies shell out. The Journal is surprised that Senator McConnell should allow such a measure the use of his name.

There seems to be some little breeze about ex-Gov. Sprague becoming the Democratic candidate for Governor, but prominent Democrats rather doubt the advisability of taking a pronounced Republican as their standard bearer, and counting the number of Democratic voters in Rhode Island, the chances of success would not seem to be overwhelming.

Representative Page has presented to the President the name of W. E. Dargie for the nomination as Postmaster at Oakland, and it is thought the appointment will be made. The Journal sincerely trusts the young publisher of the Oakland Tribune will be given the position.

When a representative from Washoe county votes to establish a maximum of 5 and 10 cents he votes to forever prevent the building of a railroad northward from Reno or Wadsworth, and he votes against the wishes of his constituents.

Old Ben Butler is nothing, if not characteristic. In appointing the annual fast-day for Massachusetts, exhorts ministers of the gospel not to discourse upon political topics, but to preach the Divine word.

Many excellent bills have been introduced in each House of Congress within the last few weeks, and it is to be regretted that they must go down as heaps of rubbish at the close of the session.

The Assessors' bill, having been passed after the repeal of the Salary law, is believed by those officers to continue them under the salary system, as in it they have provided for salaries.

The Foley fee bill has passed the Legislature. The reduction is about 30 per cent from present rates. It is a very just and proper measure.

NEWSPAPERS AND POLITICIANS.

[Carson Appeal, Feb. 21.]

Charles May, of Aurora, is reported as having said in this city a few days ago that he was in favor of abolishing all the newspapers in the State as they were a lot of blackmailing institutions who would not allow a man to get elected unless he stood in with them. Mr. May unwittingly pays a well deserved tribute to the influence of the free press. There are a certain class of politicians who, if there were no newspapers in the country would in a few years be able to have the complete control of all the offices, all the salaries and all the public money in the State. The only bar in the way of this is in the fact that there are newspapers capable of sifting these schemes to the bottom and effectually squelching them. It may be a little rough on these men that the newspapers cannot be tied up to their jobs and whipped into line. The only remedy for them is to go down to Patagonia or the wilds of Central Brazil.

The idea that politicians must look upon newspapers as aids to political success is really a curious proposition. The real mission of a high minded and conscientious press is to do the campaign advertising free, print calls for mass meetings all through the campaign at gratuitous rates with 30 per cent. discount added. The editor should write out speeches for the stumpers who can't write their own ideas, eliminate the bad grammar for those who think they can, and attract to himself all the abuse of the campaign in order that Brown, Jones and Thompson may all get fat offices and have a good thing for two or four years. When all this is accomplished he is supposed to get from the Central Committee about 50 per cent. of what it has cost him through the campaign for the wages of extra compositors. This is the high moral idea that seems to permeate this western community.

Ben Barnett, as "Reubenstein, Music Mad," received the prize for the best sustained character, and Mrs. Amos Alt, (Indian Princess), for second richest costume, at the masquerade ball in Carson on the 22d.

THE REDUCTION OF THE MAXIMUM.

No matter what the plank in the Democratic platform or the action of the Legislature there is no sense in the movement to regulate the railroad question in Nevada by reducing the maximum from 10 to 5 cents for fare and from 20 to 10 cents per ton per mile for freight. Such a maximum at once prohibits in our lifetime the building of the Nevada and Oregon road north from Reno. It undoubtedly causes the cessation of work on the Carson and Colorado, and prevents the extension of that road to a connection a way down south with the Southern Pacific or to the Colorado river. And right now it is an injustice to that road, because even with it charging the full maximum the people are a great deal better off than before the road was built. The reduced maximum means the closing down of the Austin and Battle Mountain road. That little road charges the full maximum of 10 and 20 cents, amounting to \$9 for fare and \$18 per ton for freight. Before the road was constructed the stage fare ranged from \$15 to \$25, and freight averaged \$30 per ton. About the same state of facts exist concerning the Eureka and Palisade road, but that road does so much larger business, that the reduction would not act as disastrously, and yet at the proposed maximum the road could barely pay operating expenses. The Virginia and Truckee would fare but little better than the Eureka and Palisade. The C. P. could stand the reduction better than any of the local roads, but we are inclined to believe the people would get the worst of it from that corporation, because of the inevitable increase in the price of carriage of all of the low-priced articles, because of the forced reduction of the high ones. Such a policy would prevent the shipment of ores, and would be a blow at the farming and stock-raising interests. The Journal is opposed to the reduction of the present maximum, because it would prohibit the construction of new roads, because it injuriously affects the interests of the local roads, and because it firmly believes the people will be injured by such a radical change as is proposed. While the rates on some of the local roads are out of proportion to the service performed, the people can endure them, provided all discrimination can be done away with, and this State given the benefit of through rates from the East. A general law of the Williams stripe is unjust and impracticable. Some plan of reaching each road by itself must be devised and adopted. This can be done by classification as to receipts, or by schedule, and yet if not possible in either of these ways, then let the State protect and benefit itself by requiring a certain percentage of the gross receipts of each company.

RENO AS A MILITARY POST.

The citizens of Reno should consult together, and make an effort to have Reno selected as the place for a military post. We believe that the town should first make an offer of sufficient land for all purposes required by the Government. Gen. Sherman, as we all know, has recommended the abandonment of Forts Halleck, McDermitt and Bidwell, and it is only a question of time when these three will be consolidated into one large post at some place on the line of the railroad. It is also generally understood that Gen. Schofield, Commander of this Pacific Division, also favors concentration. Nevada will certainly have a 12-company post, and Reno in a military point of view, presents superior advantages. The soldiers can be maintained here as cheaply as any place, while our climate and natural facilities and geographical position are important factors. Undoubtedly the officers prefer Reno, as here are good schools and society. Something should be done to immediately secure the coveted prize.

THE ASSESSORS' BILL.

The passage of the bill extending the term of the present Assessors to four years is justified by its friends on the ground that it is in the interest of retrenchment and reform. They claim that it saves \$11,500 for the last two years, as for instance the Assessor of Eureka is cut down from \$5,000 to \$3,000 per annum, of Washoe from \$2,000 to \$1,500, and the others in amounts sufficient to make up the aggregate as stated.

The cry raised against railroads by the Legislature, will not shield it from merited rebuke for passing bills that never should become laws, and refusing to pass other reform measures which are of the greatest importance to the taxpayers.—Silver State.

They have a nice old lady in South Boston of the genuine Partingtonian variety. She recently alluded to the illness of a friend with: "You see, he had digestion of the lungs, and then it settled into ammonia."

A club in Eureka is called the "The Growlers." It is supposed to be composed of men who think they could run a newspaper better than the editor.—Eureka Leader.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. feb. 21-sw-lyr.

He removed to Michigan nine years ago, and has been living there ever since. His mind is affected, and his wife, acting on the advice of friends and physicians, has brought him here, hoping that a change of climate may have a beneficial effect upon him. Mr. Crozman was the first Lieutenant Governor of this State, having been elected in 1864.

School Fund Money.

Governor Adams sent the following special message to the Legislature on Thursday:

EXECUTIVE DEPARTMENT,
GOVERNOR'S OFFICE,
CARSON, February 23, 1883.
To the Honorable the Legislature of Nevada—I desire to invite your attention to the limited scope for the investment of the proceeds of the sale of lands for educational purposes now permitted by Section 3 of Article XI of the Constitution of this State, and to suggest to your honorable body the consideration of the propriety of an amendment to said section permitting a greater latitude for investing said moneys than in United States bonds or the bonds of this State, as now limited. To pay the high premium now charged on the United States bonds so reduces the per cent. on moneys as to render them no longer desirable when other safe securities offer. The State having exhausted its borrowing power to within about \$150,000, the money arising from the sale of these lands must, in the near future, find other securities than the bonds of this State. The bonds held by the State not being subject to taxation, the same considerations should not enter into the investment of its school moneys as would naturally enter into the consideration of an individual making a similar investment which would be subject to taxation, and, in my opinion, it is desirable that such investment be made in good bonds paying a higher rate of interest than that now permitted by the Government of the United States. For these reasons, and in view of the fact that other State bonds of ample security are being offered at a fair per cent., I invite your consideration of the propriety of so amending the Constitution of this State as to permit an investment of the school moneys in such State bonds or other securities as you may deem expedient and proper.

J. W. ADAMS, Governor.

Frank Leslie's Popular Monthly.

The March number is one of the most interesting that has yet appeared of this attractive Magazine. The opening article by Noel Ruthven, "From Bismarck to Osburn," with its eleven fine illustrations, is admirable; and the following will well repay the reader: "Cyclones and Tornadoes," by F. Grandy; "Gustave Adolphus of Sweden," by Alfred H. Guerssey; "Fires in Theatres and Their Prevention," by Horace Townsend; "Tongues from Tombs—The Mounds of the United States and the 'Tomb of Peru,'" etc., etc. They are elaborately illustrated. In the department of fiction are contributions by W. O. Stoddard, E. S. Kenneth, May Russell, Spencer W. Cone, W. Edgar McCann, etc., etc. There are interesting sketches and adventures, poems of great merit, and a new serial of great interest is commenced, entitled, "The Beautiful Countess of Clairville." The miscellany is comprehensive, amusing and instructive, and the embellishments excellent. A chromo is given with each number. "For Life or Death" is the title of the present one. Price, 25 cents a copy; \$3 a year, postpaid. Address, Mrs. Frank Leslie, Publisher, 63, 65 and 67 Park Place, New York.

Railroad Bills Killed.

In the Senate yesterday the Williams railroad bill was reconsidered, and indefinitely postponed by the following vote: Ayes—Dangberg, Foley, Fox, Gallagher, Hammond, Henderson, Hobart, Marker, Parker, Taylor, Tolley, Westerfield, Noes—Brunsey, Dennis, Kaiser, McConnell, Rockhill, Schooling, Smyth, Williams.

The Melarkey bill was also indefinitely postponed by a vote of ten to ten, President Laughton having the casting vote, and voting in the affirmative.

The Senators voted the same as upon the Williams bill, except Marker, who voted for the Melarkey bill, but Marker and Dangberg changed from their first vote on the Williams bill, and Dangberg stood pat then on both bills.

New Patents.

Dewey & Co.'s Scientific Press Patent Agency has official reports of the following U. S. patents issued February 6, 1883:

Jas. T. Clark, Bath, Cal., stone drilling machine; E. K. Corder, S. F., insole for boots and shoes; John P. Cui-ver, Tucson, A. T., water, gas and drain pipe; Geo. W. Dettler, S. F., evaporative cooler; Chas. Elliot, S. F., apparatus for purifying water for boilers; Job C. Foster, St. John, Cal., stock car; Thos. Holman, Salem, Or., screen cleaning device; H. O. Hooper, Fresno, Cal., hammer; J. D. Hurst, Salem, Or., bolting reel; E. Hutson & E. Squires, Salem, Or., driving out; William M. Jones, Stockton, Cal., coupling link; W. E. Shellenberger, Woodland, Cal., bag holder.

Promised "Boom" in Stocks.

The Carson Appeal says that a letter received in that city states that "the Bonanza firm are taking in nearly everything that is offered in the line of Comstock stocks. The writer is well informed, and there is no doubt that a big stock deal is in the cards sometime this year."

A Denial.

The School Trustees deny that they have engaged Prof. Foster, of Illinois, as Principal for the coming school year. He has been written to but not engaged, neither do the Trustees know that he will be. They are very well satisfied with the manner in which the school is being managed at present.

A Carson Greenaway Party.

An Enterprise correspondent writes from the capital, describing in rapturous terms his experiences at a Carson Greenaway party. As many of our readers do not know what a Greenaway party is we let him describe one. In the first place the girls are all dressed in flowing robes of spotless white, with bare arms and low cut dresses, and the costume is of the most peculiar pattern, in that the dresses have no particular shape to speak of. They are built on the plan of a barley sack, and a broad belt is passed around the body under the arms, several inches above the usual zone line. The material for the dresses is of light character, and the effect of a lot of pretty girls so attired, with high hats and high bonnets, exquisitely picturesque. That indeed seems to be the object particularly sought. In addition, the hall is decorated with fans, Japanese works of art and other esthetic nicknacks. Each young lady contributes a lunch in a neat little basket, and at the proper time the baskets are doled out to the young men present at fifty cents a head, and each young man eats lunch with the young lady whose name he finds in the basket. It is judiciously decreed that no married man is permitted to buy a basket, and no married woman is allowed to furnish one. A lunch is spread for their benefit, however, and so all are accommodated. The money realized is devoted to charitable purposes. The Carson Greenaway young ladies are a most charming and delightful organization of associated beauty and dazzling loveliness. They expect to repeat their parties indefinitely, and it is understood they will appear in uniform upon the occasion of the Senatorial ball next week, by special invitation of the Senators themselves.

The Articles.

The JOURNAL stated a few days ago "that within the past year the policy of the Central Pacific had been somewhat changed, and certain articles of freight have been, and can now be, landed from Chicago to points within this State at even a less rate than the price from San Francisco." The Virginia Chronicle asks "What articles?" On the 29th of November the following appeared in the JOURNAL:

Alvaro Evans was in the best of spirits yesterday while telling a JOURNAL reporter that Iron Point, Humboldt county, was now a "competitive" point. Mr. Evans exhibited a freight bill for a car-load of barbed wire which had just been landed at Iron Point from Chicago, on which the charge was but \$1.88 per hundred, as against \$4 heretofore the tariff, and as against now the charge of \$2.29 from even San Francisco to Iron Point. Mr. Evans expresses himself well pleased with the new turn Nevada freight affairs have taken.

We know that a similar reduction has been made on other articles, for Reno merchants, as well as merchants at Winnemucca, are now receiving goods direct from the East, something they were prevented from doing before the change of policy.

All On It.

The introduction of the bill extending the term of the Assessors awakened a desire on the part of some other county officers to have the bill made general, and District Attorney Stephens, of Storey, for himself and by request of some of the others up there, wrote to District Attorney Alexander, of this county, to bring the matter before our county officers, so that their influence might be exerted in behalf of the good cause. The Washoe officers are content with the term for which they were elected by the people.

A Bull Town.

The closing down of the Nevada and Oregon railroad, the cessation of mining operations in Pyramid and Peavine districts, and the actual stoppage of all outside work in this section and vicinity, taken in connection with the general paralyzation which prevails everywhere, has made Reno a duller town now than ever before in its history. Our people must bear up as bravely as possible under the circumstances.

A Screw Loose.

It is said that there were a larger number of cattle shipped out of Humboldt county last year than were returned for assessable purposes, and that, in fact, there are more cattle on five ranches in that county than the whole number returned to the Assessor.

Discrimination at Home.

The Central Pacific charge \$90 per car for cattle from Reno to San Francisco; from Winnemucca the price is \$100, while from Elko it is but \$110. These prices may be good for Winnemucca and Elko, but don't Reno get the worst of it?

Voice of the People.

R. V. PRINCE, M. D., Buffalo, N. Y.:—I had a serious disease of the lungs, and was for a time confined to my bed and under the care of a physician. His prescriptions did not help me. I grew worse, coughing very severely. I commenced taking your "Golden Medical Discovery," and it cured me. Yours respectfully, JUDITH BURNETT, Hillsdale, Mich.

"Made New Again."

Mrs. Wm. D. Ryckman, St. Catharines, Ont., says: "R. V. Pierce, Buffalo, N. Y., I have used your 'Favorite Prescription,' 'Golden Medical Discovery,' and 'Pleasant Purgative Pellets,' for the last three months and find myself—(what shall I say)—'made new again' are the only words that express it. I was reduced to a skeleton, could not walk across the floor without fainting, could keep nothing in the shape of food on my stomach. Myself and friends had given up all hope, my immediate death seemed certain. I now live to the surprise of everybody and am able to do my own work."
